Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; North Pacific Observer Program Safety and Security Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the Federal Register on November 23, 2020 (85 FR 74694) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic Atmospheric Administration (NOAA)

Title: North Pacific Observer Program Safety and Security Survey

OMB Control Number: 0648-0759.

Form Number(s): None

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 300

Average Hours Per Response: 10 minutes

Total Annual Burden Hours: 50

Needs and Uses: NMFS certified observers are a vital part of fisheries management.

Observers are deployed to collect fisheries data in the field; observers often deploy to vessels and work alongside fishers for weeks and months at a time. The work environment observers find themselves in can be challenging, especially if the observer finds themselves a target for victim

type violations such as sexual harassment, intimidation, or even assault. NOAA Fisheries' Office of Law Enforcement prioritizes investigations into allegations of sexual harassment, hostile work environment, assault and other complaints which may affect observers individually. However, it is difficult for a person to disclose if they have been a victim of a crime, and law enforcement cannot respond if no complaint is submitted. The true number of observers who have experienced victim type crimes is unknown, and the reasons why they do not report is also unclear. More information is needed to understand how many observers per year experience victim type crimes, and why they chose not to report to law enforcement.

The survey will also investigate the reasons that prevented observers from reporting these violations. The results of the survey will provide the Office of Law Enforcement a better understanding of how often observers are victimized, which will enable them to reallocate resources as needed, conduct more training for observers to ensure they know how to report, conduct training to ensure people understand what constitutes a victim crime, and to increase awareness of potential victimizations. Additionally, the survey results will help law enforcement understand the barriers to disclosure, so enforcement may begin to address these impediments so they no longer prevent observers from disclosure.

Affected Public: Federal Government

Frequency: Annual

Respondent's Obligation: Voluntary

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act
